Github: github.com/MukeshBhatt09

Skills

- **Languages**: C++, Bash Scripting.
- **Tools/Platforms**: BurpSuite, IDA, Ghidra, Wireshark, Kali Linux tools, Cisco Packet Tracer, etc.
- **Soft Skills**: Critical thinking, Team Player, Patience, Leadership, Adaptable.

Internship

Linux System Administration – Red hat Academy / LPU CPE Jun - Jul 25

Linux sysadmin intern

- Gained hands-on experience of using CentOS and other red hat Linux distributions.
- Automated system administration tasks using Bash scripting, reducing manual intervention by 40%.
- **Tech**: CentOS, Red Hat Enterprise Linux 9.

Ethical Hacking Bootcamp – Code Sprint Mar 24

cybersecurity Intern

- Conducted web application penetration testing on 15+ targets, identifying vulnerabilities using Burp Suite and Kali Linux.
- Acquired knowledge of OWASP Top 10 vulnerabilities and real-world web application security challenges.
- **Tech**: Burp Suite, Kali Linux tools & custom tools.

Projects

- **F3LON's Vault – Vulnerable Tabnabbing Website** Mar 25
  - Created a purposely vulnerable website demonstrating the tab nabbing attack and associated security risks.
  - Built a comment interface along with Create, Download, and Login pages using HTML, CSS, and JavaScript.
  - Developed a malicious download page to perform reverse tab nabbing and highlight insecure redirection issues.
  - **Tech:** HTML, CSS, JavaScript, ChatGPT.
- **Security Header Analyzer** Feb 26
  - Developed a Security Header Analyzer to detect HTTP security misconfigurations in web applications.
  - Automated validation of CSP, HSTS, and related headers with AI-assisted vulnerability risk assessment.
  - Integrated Groq-based LLM API to generate real-time security risk analysis and remediation guidance.
  - **Tech**: HTML, JavaScript, Python, LLM API etc.

Certificates

- Postman API Fundamentals Student Expert - Postman Dec 25
  Learnt What APIs are and their importance in modern software development, how to use Postman to work with APIs.
- Bits and Bytes of Computer Network – Google/Coursera Sept 24
  Gained a clear understanding of how networks work, including protocols, routing, and data flow from end to end.
- SQL injection Attacks – EC council. Jun 24
  Learned how SQL injection works, finding vulnerable parameters, and how to test and exploit common injection patterns safely.

Achievements

- **Secured total bounty of $1400+ in HackerOne | HackerOne Profile**
  Got Bounty Rewarded by Starbucks & a private program hosted on HackerOne.
- **Listed on Red Hat's Vulnerability Acknowledgement page | Red Hat**
  Got listed on acknowledgement page for contribution in strengthening security in red hat's websites.
- **Listed on Tencent's Hall of Fame & received bounty acknowledge | Tencent**
  Got listed on Hall of Fame for contribution in strengthening security in Tencent's websites.
- **Koppa Netherland's Security Hall of Fame 2026 | HoF page**
  Got mentioned in Koppa's Security Hall of Fame for Identifying critical severity vulnerability in their application.
- **Informatica's Security Researchers Hall of Fame 2025 | HoF page**
  Listed in Informatica Hall of Fame for finding 2 security vulnerabilities in their VDP hosted in HackerOne.
- **Hack the Box Cyber Apocalypse 2025 CTF | Scoreboard**
  Among 8k+ teams globally, secured team rank of 125th.

Education

- **Lovely Professional University** Jalandhar, Punjab
  Bachelor of Technology - Computer Science and Engineering *Since Aug 2023*
- **Kendriya Vidyalaya – Fort William, Kolkata** Fort William, Kolkata
  Intermediate *Mar 2023*
- **Kendriya Vidyalaya – 39 Gorkha Training Center, Varanasi Cantt.** 39 GTC, Varanasi Cantt.
  Matriculation *Mar 2021*
